

European School of Pathology

"UPDATE IN BREAST PATHOLOGY"

2-4 May 2019
Medical University Varna

Program EScoP Varna 2019 "Update in Breast Pathology", 2-4 May

Day 1					
Introduction	10 min	Faculty			08:30
Normal breast tissue and fibrocystic change	80 min	Tibor Tot	Lecture		08:40
Discussion, break					10:00
General pathology of breast lesions	90 min	Tibor Tot	Lecture		10:30
Lunch					12:00
Benign breast lesions	90 min	Maria Pia Foschini	Lecture		13:00
DCIS	45 min	Tibor Tot	Lecture		14:30
Discussion, break					15:15
Case demonstrations – algorithmic approach: lesions showing papillary patterns	90 min	Gabor Cserni	Virtual slide seminar		15:45
Case demonstrations: rare benign lesions	30 min	Faculty	Virtual slide seminar		17:00
End of day 1					17:30
Day 2					
Lobular neoplasia	45 min	Maria Pia Foschini	Lecture		08:30
Special types of breast cancer	45 min	Maria Pia Foschini	Lecture		09:15
Case demonstrations – algorithmic approach: lesions showing microglandular patterns	45 min	Maria Pia Foschini	Virtual slide seminar		10:00
Discussion, break					10:45
Breast carcinoma NST, prognostic and predictive factors	45 min	Anna Sapino	Lecture		11:15
Lunch					12:00
Microscopy session: correct assessment of predictive parameters	90 min	Anna Sapino	Tutorial		13:00
Discussion, break					14:30
Microscopy session: immunohistochemistry in diagnosing breast lesions	60 min	Gabor Cserni	Tutorial		15:00
Case demonstrations – algorithmic approach: lesions showing diffuse growth	60 min	Tibor Tot	Virtual slide seminar		16:00
End of day 2					17:00
Day 3					
Preoperative diagnostic approach	45 min	Tibor Tot	Lecture		08:30
Postoperative work – up of the specimen	45 min	Tibor Tot	Lecture		09:15
Assessment of the specimen after neoadjuvant therapy	45 min	Maria Pia Foschini	Lecture		10:00
Assessment of the lymph nodes	60 min	Gabor Cserni	Lecture		10:45
Course evaluation					11:45
End of the course					12:00
